## SOFTWARE DEVELOPER

[www.linkedin.com/in/mdubane-digits-a254a120b](https://www.linkedin.com/in/mdubane-digits-a254a120b)

## OBJECTIVE

Seeking a software development role where I can leverage my skills in **C#**, **Python**, and **AI**, while contributing to the design and implementation of cutting-edge **web** and **mobile applications**. I aim to contribute to a dynamic team where my experience in data analysis and collaborative problem-solving can support the company's goals and foster innovation.

## EXPERIENCE

### ICT ASSISTANT @ PHIKISWAYO PRIMARY

(March - 2023)

- Provided technical support to teachers and learners, resolving hardware and software issues promptly and effectively.
- Assisted in the setup and maintenance of computer systems, ensuring optimal network performance.

## PROJECT

### FLASK CHATBOT

- Currently working on a Chatbot using Python Flask Micro framework as a backend.
